

Black/grey is the standard colour, but all RAL colours are available.

Gait exercise

Description of materials	Welded, blasted and galvanised (or metallised) metal construction, with epoxy coating.
Function	This exercise practices balance while walking. The hips and knees have to bend in order not to fall over obstacles, thereby practicing and improving the normal walking pattern.
Usage	Grab the handrails with both hands, carefully step towards the other end while paying attention to the obstacles.

Type	OFS100523
Dim.	97,8 x 2848 x 84,8 cm
Space	900 x 3500 cm
Montage	50 x 50 x 70 cm, must be secured in position with concrete.
Weight	60 kg
Volume	0,2 m ³

Each piece of equipment has a specific sticker, detailing how to use the equipment in pictogram form and with a warning against improper use (size of the user).
